

## Your Home Care Package

The Australian Government offers Home Care Packages to older Australians to allow them to remain active at home for longer. They are designed to be tailored for your specific needs and can be quite complex.

Our Team will work with you to design a Package which meets your specific needs, with flexibility and support at a budget you can afford.

This Schedule provides information on the price for common services you can access through a Home Care Package. The costs will be deducted from your overall package budget. Services delivered as part of your Care Plan are GST-free.
